Product Designer with over 4 years of experience in digital projects for Itaú, working with UX/UI, discovery, delivery, research, prototyping, usability testing, design systems, accessibility and data analysis.

I have experience in financial products, investments, internal systems, customer service and operational tools, creating journeys, flows and interfaces that connect user needs, business goals and technical feasibility into simple, clear and scalable experiences.

Education

Centro Universitário Belas Artes de São Paulo
Postgraduate Degree in User Experience
August 2024 – February 2026

Universidade Paulista — UNIP
Bachelor's Degree in Graphic Design
February 2020 – February 2021

Experience

BRQ Digital Solutions: Product Designer Pleno

Product Design work for Itaú's internal systems and operational tools, with a focus on customer service, Itaú Empresas and IBBA. I work with discovery, journey mapping, navigation flows, Figma prototyping, usability testing, functional and visual documentation, accessibility, design systems, and collaboration with Technology and Business teams. I also participate in initiatives using AI and AI agents to simplify processes and improve the experience of internal users.
June 2025 – Present

BRQ Digital Solutions: Product Designer Junior

UX/UI Design work for Itaú's digital products, with a focus on investments, the Íon Itaú Investment Home, Super App and Growth initiatives. I worked with low, mid and high-fidelity prototyping, A/B testing, discovery, benchmarking, SUM methodology, usability testing, event tracking, behavior measurement and journey evolution based on data, feedback and process learnings.
May 2022 – June 2025
